Assessor Comments Here are a very well bred line of Angus and Angus cross heifers. These heifers are by very good Angus bulls with Bulliac, Burenda and Wattletop bloodlines out of large framed good quality Angus, Santa, Simmental and Droughtmaster cows. These heifers handled exceptionally well throughout the yards. The heifers have been yard weaned a day prior to assessment and will be properly weaned by the time of delivery. The heifers are being tailed out into paddocks whilst in the weaning process for easier handling. These heifers are showing good feminine traits and the majority of these heifers will suit any trade job. All the work is done with these heifers and would go on to make suitable breeder replacements or fatten on grass, grain or crop. Please note 2 of these heifers have blue eyes but have been treated and and are not detrimental to their performance. This vendor also has another lot of cattle in this sale.
