Comment on Fat Score 1 Cattle: Cattle are predominately 3mm and 4mm of fat cover having grown plenty of frame in the last 12 months and starting to hang the kg's on now. 100% of heifers are fit and healthy and would have no problems trucking long distance.

Vendor Bred: Yes

Stock History: Heifers are 100% vendor bred out of the highly regarded Burlington breeder herd. These heifers have an excellent reputation with a herd based on polled Kenilworth and Mount Fullstop Brahman genetics.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: "Burlington" heifers based on the highly regarded Kenilworth and Mount Fullstop brahmans.

Grazing Conditions: Large dry body of very good quality Flinders, Mitchell and Buffell grass. 2 to 4 inches of colour in the base still with plenty of nutrition. On undulating Black soil downs.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Eligibilities: Russian Eligible Saudi Eligible

J-BAS Score: 6

Vendor Comments: A very tidy line of replacement quality grey brahman heifers that would usually be held and joined at the end of this year. 100% polled and scurred heads with excellent temperament and education.

Joining Details: Not Station Mated

Any Access To Bulls: To vendor's best knowledge, this lot has had no access to bulls or stags.

Temperament

Yards	Crush	Paddock
Docile: 18 head Quiet: 106 head Slightly Stirry: 4 head	Docile: 4 head Quiet: 106 head Slightly Stirry: 18 head	Temperament not assessed in Paddock

Very good to handle through the yards, all heifers moved through a pound draft and up the race comfortably without pushing or stirring up at all. Odd heifer became slightly agitated during mouthing and weighing however would not consider this to be outside of breed characteristics or in any way excessive. All heifers settled quickly and comfortably once drafted and assessed.

Handled With

Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Low Stress Stock Handling© practices (5/08/2021) , On foot , Vehicles

Notable Traits

	Traits
2 Head	Minor flybite

Assessor Comments

128 x Grey Brahman heifers presenting as a top quality 4 deck line of future breeders. 100% polled and scurred heads with plenty of bone and frame about them and carrying what many consider some of the best commercial brahman genetics in the north, predominately being Mount Fullstop and Kenilworth Brahmans. Excellent temperament and education on these girls coming through the yards exceptionally well with only a very small percentage becoming agitated under pressure during mouthing or weighing. All heifers settled very quickly once drafted and allowed us to walk through them with very little movement off us in the yard. 20hd mouthed at assessment being 100% milk tooth and 100% weighed after 16 hours in the yards off feed. 100% grey in colour including a small percentage of "creamy" coloured heifers, these are the ideal heifers to join to the bull of your choice and would be an asset to most brahman breeding enterprises.
