Steers flowed well through the race and crush, showed normal weaning tendencies in the backyard/crush. Steers were exceptionally good to handle considering only very recently coming off their mothers and a truck trip. 1 steer very trotty in big yard but with further education throughout the weaning process no foreseen temperament issues.

Assessor Comments	Buyers, on offer, 80 exceptional Braford, Simmentail, Angus and Charolais infused steers. Steers currently receiving full weaning program and are expected to respond very quickly given the opportunity. Steers show very good growth for age. The Kenny family herd is based on leading genetics from Harriett Valley Braford bred females and have spared no expense purchasing leading genetics from Woonallee Simmentals. Buyers, 80 steers that will excel in the heavy feeder program or grass fed bullock job, worth your consideration. Note - steers will be offered clear of ticks on farm.
