Vendor Comments

These steers are some of our annual turnoff of weaners. They have been extremely good to handle in yards and paddock. They are currently being yard weaned and turned out in paddocks during the day.

Assessor Comments	Here are a very well bred line of Charolais and Santa cross steers. These heifers are by very good Angus bulls with Bulliac, Burenda and Wattletop bloodlines out of large framed good quality Charloais and Santa cows. These steers handled exceptionally well throughout the yards. The steers have been yard weaned 11 days prior to assessment. The steers are being let out into paddocks during day and re yarded at night whilst in the weaning process for easier handling. These steers will grow on to very good heavy weight feeders or bullocks. They are showing very good bone and shape. This vendor also has another lot of cattle in this sale.
