Assessor Comments	22 quality heifers bred from large framed 'MYANGA' blood cows. Averaging 345 kg at assessment these heifers show good growth for age and plenty of constitution. They are backed with genetics with vendor purchasing the top sires annually at 'MYANGA' Angus bull sale, and this is proven through the shape and quality of these calves. They were good to draft and run through the crush for weighing but will benefit from further handling in the yards. They were weaned on the 7/4 and are doing well on oaten crop and wheaten hay since weaning. Buy with confidence.
