Assessor Comments

A good line of steers 16 to 18 months of age that have been running on short natural winter pastures of rye grass and

clover. These steers were generally good to handle through the yards & crush with 1 str a bit stirry when in the crush. 1 str had a scar on left eye. Steers were given a 5 in 1 shot in March & treated with Moxy pour-on 26/6/24. These steers are healthy and are in strong store condition and ready to pack on the weight given the right nutrition.
