Properly weaned and yard/race trained weaners that flowed through the assessment process with a minimum of fuss. A very odd weaner got slightly agitated on the weigh platform but settled easily once back with their group.

Assessor Comments	Offering 119 Top Of The Drop Angus Steers 10-11 months off "Glenfalloch" in two lots of 58 and 61 and split by weight off the scales with this lot representing the 58 heaviest calves. Noted district performing cattle bred out of volume Angus females with decades of breeding on Dunoon bloodlines with bulls selected out of the top end of the catalogue. Usually taken through to the Spring and marketed as heavy feeders/kill steers, these steers are being offered earlier due to the tighter than normal season in the district and screams opportunity for the finisher as they display length, bone and shape and present in fresh store condition. Noted a very odd steer with white on purse and/or pizzle. PCAS Grassfed Declaration available at purchasers request. Note photos and videos are of all 119 steers being offered. Vendor offering 119 steers over two lots and 67 heifers in this sale.
