Vendor Comments

We have joined the Team Te Mania program 18 mths ago and added the female herd to Angus Commercial Register (ACR) which has really assisted with making better joining choices and evaluating females.

Assessor Comments	A/c Gooramadda, Team Temania and ACR member. (TACE recorded) *EBV Avg in documents* 23 Angus steers 12-13mths 325kg by Te Mania sires Legend and Quota in AI program (10 steers in total that are identified by yellow management tag) balance bulls supplied by Te Mania. The Gooramadda herd has invested heavily in genetics and data collection to produce one of the North East's finest commercial Angus herds. The last 6 years of using Te Mania's AI sires has truly elevated the herd. These young steers have a beautiful skin and hair that you want in Angus cattle, while being backed up with a comprehensive animal health program. At assessment steers were still gaining on avg 0.4kg p/day. Calves post weaning were fed silage, now grass hay while having access to short green pasture. Damaged eyes would pass feedlot entry protocols. Most animals displaying some ringworm.
