Assessor Comments	Feed lotters/bullock growers look on here! This is opportunity to secure a very good line of VGQ HGP free vendor bred steers. Backed by their previous years drop taking out the Northern beef producers feedlot competition in 2023 these cattle have been bred to perform. Right in the perfect 100 day feeder weight range these cattle display excellent thickness, length and muscling ability and without a doubt will continue to grow out into high yielding steers with an outstanding carcass. These steers were a pleasure to assess, there are 2 other lots in this sale - a credit to the vendors and their commitment to presenting their cattle. These steers have been sold numerous times on Auctions Plus and have always satisfied buyers expectations. Please Note: 3 steers observed with flybite, 3 steers showing greater than 40% Bos indicus content (1/4 hump). Ideal feedlot weights with a wet curfew weight range of 400 - 500kg @ Assessment.
