	Heifers were good to walk through in the yards and take photos. When working through the yards they were easy to block but at times did rush in the race prior to the crush. At the time of the assessment these weaners were on their first trip up the crush and once weaned should settle down well.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses , On foot , Vehicles		
Assessor Comments	Offering 124 quality Angus Cross heifers. These well grown heifers averaged 257kg live at assessment and were unweaned with the heifers going back on their mothers until delivery. They are a quality line of heifers that have all been sired by Texas Angus bulls out of large frame cows. These heifers would make a very tidy line of future breeders or equally suit a trade job for the backgrounder to go onto feedlot weights. Please note there are another 81 heifers from the same vendor in the sale today.
