Vendor Comments

These heifers are some of our annual turnoff of weaners. They have been extremely good to handle in yards and paddock. They are currently being yard weaned and turned out in paddocks during the day.

Assessor Comments	Here are a very well bred line of mainly Charolais and Santa cross heifers. These heifers are by very good Angus bulls with Bulliac, Burenda and Wattletop bloodlines out of large framed good quality Charloais, Santa, Simmental and Droughtmaster cows. These heifers handled exceptionally well throughout the yards. The heifers have been yard weaned 11 days prior to assessment. The heifers are being let out into paddocks during day and re yarded at night whilst in the weaning process for easier handling. The majority of these heifers will suit any trade job. All the work is done with these heifers and are good growthy types ready to be turned out and grown on. This vendor also has another lot of cattle in this sale.
