Cattle generally good to handle throughout yards at assessment. Odd steer didn't appreciate the confinement of the crush environment but was quick to settle upon leaving.

Handled With: Bikes , Vehicles

Assessor Comments: Very well bred line of feeder steers showing very good performance for their age as their weight suggests. Vendors spares little expense in acquiring his genetics and it shows through the conformation of these steers. They show very good frame and are a lead draft for the year. 380-500kg at assessment they carry a clean bill of health and ideal to take onto heavier weights. Noted in group 2 steers with very small eye scarring not affecting the performance of the animal in any way. Please call for further information. Vendor also offering a lighter group of angus steers in the same sale.
