| Assessor Comments  | Very well bred line of Blk limo steers showing all the quality traits the breed desires. They present evenly, are well grown and display good muscle with adequate softness. Vendor runs his limousin herd on the south coast with the progeny coming back to the tablelands at weaning to be grown out. Ideal to carry through to feeder or present back to the trade.                      |                                                                                                       |                                                                   |
