Assessor Comments	Autumn '23 drop Hereford & Hereford X steers that have done it a bit tough but will absolutely explode on spring feed. These steers weighed 319kg full (243-404kg) and are all frame with enormous compensatory gain potential. These steers are grassfed fed and antibiotic free eligible being part of the Greenham Never Ever program. They would be ideal to grow out to kill or feeder weights, in previous years these steers have been killed at 350-400kg cwt at 19-20 months off grass. One steer observed with old pinkeye scar, not deemed detrimental. Please note, vendor has also has two other lots in this sale.
