| Assessor Comments  | 25 NSM Angus Heifers Acc. Billabong Beef Company - Bungowannah. Heifers present in forward store condition. Ardrossan Angus blood - Bull selection is a stringent process for the vendor where key traits such as strong carcass attributes, structure & calving ease are all a major focus. The above heifers would generally be carried through to the spring for the kill market but unfavorable season conditions has forced them for sale. These heifers being 20-22 months of age, carrying little excess condition will see large compensatory weight gains in the foreseeable future if shown the appropriate feed & nutrition. |                                                                                  |
