Vendor Comments

Cows provided a excellent crop of weaners to top up numbers of yearling cattle. Being a Santa dominated herd we were looking for a Charolais influence in heifers which will be retained in our program. Cows now surplus to requirements.

Assessor Comments

An 8 deck genuine line of very good quality Charbray X breeders. All vet pregnancy tested in calf from 4 to 7 months to Santa and Charbray bulls. These cows stand on great bone and show plenty of frame and capacity. Cows have just had weaners pulled off and have done an outstanding job on those calves. Cows being predominately 3 to 8 years of age with only 11 head being 9 years and only 1 cow being 10 years old. The longevity of this line will be an asset to any herd for many years to come. These cows stand in strong forward store condition and as such their weights would indicate they are large to very large framed cows. These have been guaranteed by the vendor to be CLEAR OF TICKS so no risk for buyers in any state. Please note, approximately 20% of the mob are showing some degree of rubbing from fly bite. Buyers unsure about dipping protocols are advised to call the selling agent for further clarification. TO DELIVER AS A RUN OF THE GATE 79 + 78 WITH EMPHASIS ON 2 EVEN LOTS.
