Comment on Fat Score 1 Cattle: Cows are predominately forward store condition with a small proportion of store type cows in mob due to just having weaners pulled off. Cows are fit to load and should travel standard kilometers.

Vendor Bred: No
Vendor has owned stock for 2-6 months

Stock History: Cows were bought as cow and calf units after property sale. Ex: "Humboldt", Comet.

Lifetime Traceable: Can't guarantee lifetime traceability.

Grazing Conditions: Cattle have been Grazing on Improved Gidgee and flood out country with stand of dry Buffel grass and some herbages

from recent rains.

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Cows & Calves Drenched 06/07/2024 Moxilab
Chemical Residue	Clear - No known history.
J-BAS Score	6
Vendor Comments	Cows provided a excellent crop of weaners to top up numbers of yearling cattle, being a Santa dominated herd we were looking for a Charolais influence in heifers which will be retained in our program. Cows now surplus to requirements.

Temperament

Yards	Crush	Paddock
Quiet: 54 head Slightly Stirry: 2 head	Quiet: 50 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Cows worked very well through race and crush, Cows didn't show any temperamental issues whilst taking photos/videos etc. Please note that a portion of cows become stirred up during preg testing and ear tagging however is standard in any mob.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	A line of very good quality Charbray X cows and calves. Cows were pregnancy tested and of these 19 are back in calf (3-in-1 units). 2 are red taggers (slightly over 4 months) and 17 blues taggers (2-4 months), the balance of the cows have had the opportunity but not as yet detectable. These cows stand on great bone and show plenty of frame and capacity. Cows have just had weaners pulled off and have done an outstanding job on those calves, as well as doing a solid job on the current calf. Cows being 3 to 9 years of age the longevity of this line will be an asset to any herd for many years to come. These cows stand in strong forward store condition and as such their weights would indicate they are large to very large framed cows. These are guaranteed by the vendor to be CLEAR OF TICKS so no risk for buyers in any state. Please note, approximately 20% are showing some degree of rubbing from fly bite. Buyers unsure about dipping protocols are advised to call selling agent.
