These Hereford Cows were easy to handle through the assessment process, they walked through yards with ease and crush without a problem and mixed back into mob. These Cows have been well handled over time and we never had a issue with them throughout whole assessment process.

Handled With	Bikes , Dogs , On foot
Assessor Comments	A very handy draft of Hereford Cows with a positive Preg test of 4 months and over by Chinchilla Vets, these Cows display good frame and plenty of length. They had been running with Remolea Hereford Bulls and had weaners removed late June 2024. These Cows have not had any calving issues in the past with mainly low birth weight bulls being used. A couple of these Cows have got a small blue scar in a eye from old Blight as weaners and we could not see any troubles with sight. We did not mouth these Cows seeing they are only 6 & 7 years old. Cows with frame and good temperament are harder to find and these are all preg tested 4 months and over, see photo's for Vet letter. Located in a Tick free area with no movement restriction's these Cows would make a good starter herd for someone or good line of breeders to join to your existing herd.
