Temperament

Yards	Crush	Paddock
Quiet: 13 head	Quiet: 12 head Slightly Stirry: 1 head	Quiet: 13 head

1 cow was getting a little impatient whilst being mouthed, but settled immediately once returned to the mob

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
1 Head	The lightest heifer calf presented a little woody, with no obvious reason for being so
3 Head	Very slight white on udder

Assessor Comments	A nice line of one-mark, large-framed, mature aged Angus cow & calf units. These cows are bred from a herd which has been based on Waitara Angus bloodlines, with RDM Angus genetics introduced in more recent years. Despite their young age, the quality through the calves is evident, & they should really hit their straps coming into the warmer months of Spring. Due to very boggy yards from recent rain, & almost knee deep mud in the yards, individual photos of the calves separated from the cows proved too difficult unfortunately & only paddock photos could be attained. Cows have been running continuously with the TeMania Angus bulls since calving, however continued joining would be advisable due to the age of the younger calves. A great opportunity to secure quality proven breeders with a good deal of production left in them. # 1 male calf was left unmarked at assessment due to only being able to secure 1 testicle. Vendor has another line of 11 x 11 top quality first calvers this sale also
