2 Head	2 Calves with pink eye infection in one eye, treated with Orbenin at assessment
1 Head	Very slight white on underline of 1 Cow

Assessor Comments	A nice line of one-mark, Angus cow & calf units, all on their first calf & continuously joined to Te Mania bulls since calving. These heifers are developing well & producing plenty of milk for their first time around, which is evident in the sappy Mosquito Creek Angus sired calves at foot. These heifers are very quiet, & were a pleasure to handle through the yards, crush, & also the paddock, where it was necessary to take the photos, due to very boggy yards from recent rain. Cows have been running continuously with the TeMania Angus bulls since calving, however continued joining would be advisable due to the age of the younger calves. A great opportunity to secure quality young breeders which have calved unassisted with ease, with fleshy Angus calves at foot & a lifetime of production ahead of them. A lovely even line of very quiet, well grown young cows which are nurturing a terrific line of calves. Vendor also has 13 x 13 mature-aged Angus Cows & Calves offered in the same sale.
