Assessor Comments: 41 x Rising 3 year old Angus heifers. 428kgs full NSM. One mark, classed in Breeders. They are an even line of Moderate frame heifers, with depth of body and structural soundness. All heifers had produced a calf last year. They have performed well on improved pastures through the Autumn, but the cold Goulburn winter has slowed their progress slightly. They are sold as surplus to requirements and they are in ideal order to join any breeding program or to feed on for a trade opportunity. Cattle are bred in the cold climate as low maintenance production units. Realistic reserve and recommended
