Assessor Comments	A nice even line of Angus Heifers PTIC to Angus bulls to calve in the spring. Good framed heifers just starting to take off with the recent rains. Heifers have had all their treatments and are ready to fit into any breeding operation. These heifers where preg tested in June and at time off assessment are 1-5 months in calf Please Note the Vendor also has 46 of the Sisters in the same sale PTIC 4+ months in calf. there is the odd heifer with pink eye scarring that is not detrimental to the herd
