	Heifers were very good to handle and work through the yards. Typical of young cattle, some became unsettled while under the pressure of weighing but settled well once back in the mob.

Assessor Comments	Buyers, an opportunity presents itself to purchase a line of 42 weaned Angus & Brangus infused heifers. These heifers present in store condition and will offer plenty of compensatory weight gain once settling into their new environment due to having been fully weaned & handled. Heifers show all attributes to make great future breeders or background to heavier feeder weights, and will excel on grass, crop, or grain. The group are very good to handle and would be easy to have around. This is a rare opportunity to grab a line of light weight black heifers, with the bonus of being located right on the Warrego highway. Vendor also selling steers in same sale. Please see photos and video for full satisfaction.
