Comment on Fat Score 1 Cattle

All Heifers are in good condition and are fit to travel.

Vendor Bred	No Vendor has owned stock for 2-6 months
Stock History	The Majority of the heifers are vendor bred. With only a small sample being purchased as the progeny off a cow and calf unit.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Heifers mainly sired by Monivae 3/4 Simmental Bulls with one Charolais bull. Cows are mainly Droughtmaster, Brangus, Charolais & Brahman X cows .

Grazing Conditions	Whilst running with their mothers steers have been running on frosted improved pasture of Bambatsi and buffel with natural grasses. Returned to: Heifer will be weaned in yard & fed good quality hay, they will also be let into smaller fresh paddocks where they will be worked with bikes and dogs.
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Vendor Comments	Selling as normal turnoff.		
Joining Details	Not Station Mated		
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 22/07/2024		
Joining Access Details	Heifers have had access to bulls whilst they have been on their mothers, however no guarantees can be given on pregnancy status.		
Temperament	Yards	Crush	Paddock
	Quiet: 52 head	Quiet: 48 head	Temperament not assessed in
	Slightly Stirry: 6 head	Slightly Stirry: 10 head	Paddock
	For Heifers that have removed from their mothers they were quite settled in yards and in confined spaces. It was noted some heifers appeared to be self weaned. Heifers will be handled in yards for 3-4 days from assessment then let out and worked in a paddock up until delivery with bikes, horses and dogs.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	A good quality line 58 Simmental/Simbrah cross heifers. They have plenty of bone and stretch to take through to feedlot or heavier kill weights or future breeders. Heifers mainly sired by Monivae 3/4 Simmental 1/4 Simbrah Bulls with one Charolais bull. Cows are mainly Droughtmaster X, Charbray, Charolais, Brangus, Brahman and Composite cows. Please see photos and video for own satisfaction. It was noted some Heifers appeared to be self weaned. They will be handled and fed good quality oaten hay in yards for 3-4 days from assessment then let out and worked in a paddock up until delivery with bikes horses and dogs. Some of the heifers are vendor bred however, a some are not vendor bred as were purchased as a cow & calf unit. It was noted at assessment some cattle were showing signs of lice, with some rub marks evident. A great line of weaned heifers that will continue to move forward and be a quality asset to any future breeder operation or to suite any market.		
Assessor	Garry Cartwright (Level 1 Accredited) Phone: 0427 281 936
