	Cattle worked well through yards and crush, they have had quite a bit of handling through yards and time spent with them		

at weaning. Some cattle became slightly agitated when in weigh box and race (not unusual). When let out they settled back to the mob quickly. These steers did move off when pressure was applied in bigger yards, I would advise purchasers give them time to settle into new environment.

Assessor Comments

Buyers here is an opportunity to buy a very good quality run of weaned Speckle Park and Speckle Park x steers. These steers present in forward store condition and are ready to power ahead for the purchaser. They would ideally suit backgrounders looking to put away steers on grass, crop or grain to grow out to heavier feeder or export weights. Please note vendor has another 79 heavier steers, and 178 (2 mobs) heifers in the same sale.
