	Cattle worked well through yards and crush, they have had quite a bit of handling through yards and time spent with them at weaning. Some cattle became slightly agitated when in weigh box and race (not unusual). When let out they settled back to the mob quickly. These heifers did move off when pressure was applied in bigger yards, I would advise purchasers give them time to settle into new environment.

Assessor Comments	Buyers here is an opportunity to buy a very good quality run of weaned Speckle Park and Speckle Park x heifers. These heifers present in forward store condition and are ready to power ahead for the purchaser. They would ideally suit backgrounders looking to put away heifers on grass, crop or grain to grow out to heavier feeder or export weights, they would also suit breeders to grow out and join to bulls of their choice. Please note vendor has another 79 lighter heifers, and 141 (2 mobs) steers in the same sale. These heifers are bang tailed for identification purposes only.
