Assessor Comments	A very good line of EU Accredited Angus X Angus weaners. Out of moderate to large framed Texas Angus bloodline cows, sired by quality Glenisa Bulls. These weaners displayed very good muscle composition and are in the ideal condition & maturity to put onto crop for potentially very good weight gains and performance, later placing them into the Angus feeder market or hold to a quality heavy kill carcass. NOTE: 24 of the 51 weaners have been yard weaned onto hay on the 25.06.24, balance of calves appear to be self weaned. One weaner identified with a blue eye. ** Note 2 loading locations within 8 klm **
