Assessor Comments	On offer is a good line of traditionally bred Hereford heifers, presenting in forward store condition and only gaining weight on the quality feed in front of them. Purchased out of the Dorriggo region as weaners through the dry time last year and are hitting their straps now. Predominantly still milk tooth heifers with the odd one just beginning to cut their 2 teeth. They present as an excellent opportunity to purchase low input cattle that are on the do to hit the feeder or butcher markets moving through spring with the abundance of moisture around.
