	Quiet heifers, the majority all walked through yards and stood on scales in crush without a drama. 1 Heifer was a little pushy in race and unsettled when singled out but quickly settled once back with the main mob.			
Handled With	Horses , On foot , Vehicles			
Assessor Comments	22 Angus & Angus X Heifers that present with frame and in store condition. Heifers with a great temperament that will make ideal future breeders or grow out to target heavy fed markets. Yard weaned & quiet, well bred heifers with a grass fed declaration available upon request. Previous purchasers have been very happy with the performance of weaners & yearlings from this herd targeting high end grass & grain fed programs. There is some rubbing/ringworm on some of the heifers around the eyes & head & neck area, see last few photos. Annual turnoff of surplus heifers that would normally be heavier but are in lighter store condition due to seasonal conditions. Opportunity for quick compensatory weight gains either off grass or grain coming into the Spring.
