Assessor Comments	25 Angus & Angus X Weaner Heifers that present in typical mid-winter store condition. Heifers with a great temperament that are yard weaned & quiet. Grass fed declaration available upon request. Previous purchasers have been very happy with the performance of weaners & yearlings from this herd targeting high end grass & grain fed programs. There is some rubbing/ringworm on some of the heifers around the eyes & head & neck area. Annual turnoff of surplus heifers that would normally be heavier but are in lighter store condition due to seasonal conditions. Opportunity for quick compensatory weight gains either off grass or grain coming into the Spring. Vendor also has another 22 yearlings in same sale.
