Vendor Comments	We are only selling these Steers now due to the tight season in West Vic and subsequent lack of paddock feed. We have invested heavily in the genetics in our Angus Herd, and this has been reflected in the grading results in our Steers in recent years

Cattle were excellent to handle. Flowed through Yards, Race & Weigh Box well. The odd calf became slightly agitated when out under pressure, but nothing of concern. Handled with Dogs and Motorbikes

Handled With: Bikes , Dogs , Vehicles

Notable Traits

2 Head	Minor cloudy eye, no impact on vision at all

Assessor Comments: An outstanding line of 78 vendor bred Feeder Steers, ideal for backgrounding with Spring not far away. These Steers also have enough growth and maturity for immediate Feedlot Entry. The investment in leading A.I. genetics & Bulls from Texas, Milwillah & Weeran Angus is on display here, with Steers showing excellent bone, stretch & depth. These Steers come from an elite Angus Herd, with a key focus on 400/600 day Growth, IMF, Fat Cover & Yield. Steers are sired by Genetics Australia A.I. Bull Alkira Renegade R11, or by backup Bulls Texas Quinella Q711 ($52k Bull), Weeran Quadruplet Q196 ($32k Bull) or Weeran Ramsay R292 ($28k Bull). The Steers are grass fed eligible, & are ideal for grass fed programs or to go straight into a Feedlot. They are bunk trained, have been fully vaccinated with Bovi-Shield & Rhinogard and have never been treated with Antibiotics or Ionophores. These Steers come with my highest recommendation. NOTE: Vendor has 257 more Steers in this sale.
