Assessor Comments	Buyers on offer are 30 crossbred flatback PTIC heifers for your consideration. These heifers have all been preg tested incalf 2 - 7 months by a registered vet to Diamond H Santa Gertrudis bulls. Majority of heifers show good frame and growth for age as well as feminine characteristics. This group would be ideal future breeders to build breeder numbers, as well as the potential to fatten and split in the future. Heifers will calve in spring/summer which will allow them to fit into most breeding programs and to re-join to the bull of your choice. Buyers these heifers are a great chance to secure a line of young females with plenty of breeding years left in them.
