Assessor Comments	A Good Quality line of majority young Angus composite cows with Autumn drop calves at foot. Bred from a very good quality composite Angus Black Galloway herd that has a stud foundation, This line of cows and calves present a great opportunity as we see a sharp spike in the fat cattle market to capitalize on a great article that offers big split potential or replacement potential in to any Black herd. These young heifers and cows are large to moderate frame that are soft famine types with plenty of stretch and balance. Calves are in fresh condition and offer a spilt option in the near future, Calves are sired by a AI son of the breed leading KM Broken Bow 022. Temperament is a stand out attribute of these cows and calve units, they are very quiet and easy to handle and would suit any one were quite cattle are a must !!
