	These cows are good to handle through the yards, they are a little pushy through gateways and when being run up the crush. Cows that were slightly stirry and stirry through the crush were from being made stand on the scales for extend periods of time for when being mouthed & having NLIS tags replaced.

Assessor Comments	Buyers a small but good lot of medium to large framed, Station Mated Cows that are in the prime of their breeding lives. These cows have never missed having a calf in the time that the vendor has owned them. They have always reared a very good weaner. These cows were Preg-Tested in calf on the 21/06 by the Glen Innes Vet to a Kurra-Wirra Angus bull but there is no certificate available. These cows are only being offered for your competition due to the vendors property being sold. Quality cows to take home and continue to use as breeding females or to calve out & fatten.
