Assessor Comments	20 x 20 Cows & Calves ranging from 2nd - 5th Calvers. Majority are vendor bred females sired by stud "Eaglehawk Angus" sires. A line of heifers were purchased several years ago directly from "Booroomooka Angus" and put in the breeding herd to boost numbers with these females being mixed through the offering. The females ranged from 350kg - 560kg with the lighter ones being the second calvers with big calves at foot. Calves ranged from 100kg - 170kg to average 130kg and are sired by stud "Hazeldean Angus" bulls. *** Breeders were pregnancy tested within 7 days of assessment and were all in calf, but a small percentage were under 6 weeks therefore being unable to be deemed as "PTIC" hence why they are being offered as "Station Mated". All PTE females were sold immediately and removed from property *** PLEASE NOTE: 2 cows - scar in one eye / 2 calves - scar in one eye / 1 cow - white on udder / 2 calves look to have weaned themselves 2 of the second calvers.
