Assessor Comments	4 decks of quality Angus steers that have been drafted into a very good weight range of 300-400kg to average 335kg at delivery. Approximately 70% of steers were bought from Southern QLD and Northern NSW as weaners with the remaining 30% vendor bred out of Milwillah Angus bulls. These Angus steers were exceptional to handle through the yards and were photographed after a 24hr curfew. Steers are all HGP Free and present in store/forward store condition with good frame, providing a great opportunity to background them quickly into feeder markets. Please note there was 16 head with old pink eye scarring. Note - Cattle Assessment was completed by both Tom McLeish & Dean Fogarty.
