Cattle flowed well throughout the assessment process and were a pleasure to handle. They were drafted off other cattle through the pound with minimal fuss and proceeded up the race and through the crush without force. A few become unsettled in race and crush but settled quickly upon returning to the main mob.

These steers have a solid reputation with many repeat store buyers for performance both on grass and grain. They are all tidy around the head and present in strong store condition. These steers had a live weight range of 211kg to 390kg and will have a delivery weight of 290kg curfewed. These steers have been pretreated for ticks to assist tick free buyers in clearing protocols. Buyers please note these steers have been born and bred at the vendors breeder block, which is located on the coast, north of Rockhampton and have been down at 'Mira' since December 2023. Also to be noted the vendor has done these steers with Singvac for Botulism behind the near ear and some steers have injection site lumps which are deemed not detrimental.
