These heifers handled tremendously well only being yard weaned 2 days at assessment, these heifers will continue to be handled and educated up until delivery. The heifers possess naturally quiet temperaments with only a handful becoming flighty in the crush while being weighed at assessment. A large majority of the heifers are unfazed by human handling in the general yard area.

Handled With: Bikes , Horses

Assessor Comments: Buyers, a very nice little line of black angus cross heifers for your consideration. These heifers possess naturally quiet temperaments, they are being tailed out and handled daily and will continue to be up until delivery. The heifers on offer show great weight for age and they stand on good bone, while still remaining nice and feminine. These heifers are out of very good large frame droughtmaster cows sired by Raff Angus and Wallan Creek Angus bulls. These heifers would grow out into very nice breeder cattle or equally would grow out into good heifers to be sold into heavier feedlot/processor markets. The Parklane weaners are cattle that do perform and are often marketed threw the Roma Saleyards receiving good support from repeat buyers.
