Assessor Comments	Buyers a very good line of 26 Composite Steers that present in good store condition. They stand on good bone along with good confirmation & have all the right attributes to make these steers reach their full potential. These steers are very tidy around the head with the majority being polled. This is a strong selection criteria when vendors are selecting their bulls. One steer noticed to have ringworm around eye and one with a small wart under eye, no problem with vision. Steers have been on oats since the 2/6/24 and are starting to do well, they have dags around tail from the oats. A good line of Composite cross steers that will not disappoint any buyer. Please see photos for breed satisfaction. steers sold c/kg and are delivered to the morven railway hub yards. please see weighing instructions. Buyers note vendor has another lot of steers in same sale.
