Assessor Comments	Weaner steers showing great length, bone and weight for age. Bred from very good quality Valera Vale Droughtmaster and Simmental Bulls. They were a pleasure to handle drafting and at assessment. Majority of these steers shown typical Droughtmaster/Droughtmaster X Santa type characteristics with the Cows being a predominately Droughtmaster/Droughtmaster Cross herd. There is a small % of good quality Simmental & Angus Cross steers in this lot, best to view Photos and Video to determine breed makeup. The sisters have been retained and will move into the breeding herd. These steers will grow into heavy feeders or bullocks given the chance on good feed. Please note delivery period when bidding.
