	Steers ran through and flowed very nicely through yards. While being weighed there was 2 Steers that rushed through the crush and then settled once returned back in a bigger mob. Overall Steers were a pleasure to handle.

Assessor Comments	Buyers a good opportunity to secure a good line of well bred Angus Steers. These Steers are bred in the purple being based on a foundation built on Glen Avon genetics for a number of years purchasing Bulls up to \$25,000. These Steers were all weighed after a 18hr curfew ranging from 242-317kgs. This line of Steers are ideal to put onto a Winter crop to take through to heavier weights with Steers showing good frame and are ready to go ahead given the right opportunity. Assessing these Steers I would recommend giving a drench with signs of lice showing through the Steers. Please note the same vendor is selling another line of Steers in the same sale and two lines of Heifers that could be used as truck fillers.
