Assessor Comments

Buyers here's a neat line of heifers ready to induct and turn out onto greener pastures. These heifers show ample frame and generally a fair level of breeding. These heifers should grow out to very respectable domestic feeders and some I'm sure would make export weights given the right conditions. There was some blight scarring evident but definitely no active cases of blight or pink eye at assessment. There is signs of some lice present but only on the odd heifer. Multiple brands in this line but all very similar types of heifers. I recommend these backgrounder heifers.
