| Assessor Comments  | This is an outstanding line of Angus Heifers out of a highly recognised cow herd. The heifers are by Dunoon and Rennylea Angus genetics. The steers consistently perform to a high standard at Rangers Valley Feedlot in the long fed program. All bulls used in the herd average in the top 20% for growth carcass and maternal traits. There are 5 heifers in the mob with white on their udder, and 1 heifer has pink eye scarring in both eyes and 4 others with pink eye scarring in 1 eye. The heifers had a 5 in 1 and piliguard treatment at calf marking and were followed up with a second vaccination. These heifers will make outstanding future breeders and will not disappoint any Angus breeder. |  |  |
