Paddock

These are station cattle and are a bit flighty. The last 2/3 weeks of handling has improved temperament however some more handling/education would help these calves a lot more. If you want quiet cattle these are not for you.

Assessor Comments

Quality weaners ready to go onto some better quality feed. This is the top draft and have been drenched and needled. Odd weaner showing signs of lice/rubbing but Cydectin looks to be clearing it up. Great opportunity to secure quality weaners prior to the spring.
