Temperament

Yards	Crush	Paddock
Quiet: 50 head Slightly Stirry: 2 head	Quiet: 50 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Weaners handled well through yards and stood quietly on scales and in crush. Broken in to dogs. Odd heifer was a little flighty but not mad. Quickly settled when back in the mob. Being smaller weaners the odd heifer turned around in the race.

Assessor Comments

52 x late Spring/Early Summer drop High Country Bred Heifer Weaners that were bred on the vendors eastern property at 700-800 metres elevation and trucked to their Holbrook property at weaning. Annual turnoff of surplus heifers that are traditionally sold later in the year at heavier weights they are only being offered now due to seasonal conditions. Vendor also has another 64 head same description located 76km away at their Tumbarumba property to make up a B-Double. Opportunity to put together a line of 116 one mark, future breeders or background feeders. Please note that these heifers had some eye troubles earlier with barley grass in hay and a percentage have been treated & patched. At assessment there were approximately 20 eyes on nearside & 20 eyes on offside with old scarring. Please see photos. One heifer has a white jaw (see photos) and there is a small % with white underneath. Young heifers that will definitely improve and gain weight with some more feed and warmer weather.
