Handled With	Flowed through the crush with little fuss with an odd heifer getting agitated on the scales. As a mob they were keen to huddle together in the holding yard but were quicker to move when shown the open gateway. Wouldn't imagine any issues for competent stockpersons

Assessor Comments	Heifers pregnancy tested empty last week that are all frame and carrying little condition that would literally explode shown some quality feed. These heifers display plenty of stretch bred out of volume females and are currently grazing in a very tight Holbrook winter. Well bred females by Ardrossan, Hazeldean and Jarabee Angus sires that will respond rapidly once shown a bit of love. Greenham Never Ever Accredited or can supply PCAS Grassfed Declaration at buyers request. Huge upside in fattening these girls. Easy to get trucks to as located on the Hume Freeway.
