These are extremely good cattle to handle, and they flowed well through the yards when assessing them.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	This is a very good line of future breeder EU Black Baldy Heifers, that will put on a power of weight quickly if put on good feed. No black baldy heifers were retained, this is the complete drop with a tail removed. They have never been joined and are perfectly suited to join up for an autumn calving next year. They are EU, PCAS eligible and Never Ever Acc. They are bred out of the renowned Nareen Station cow herd, which was originally Hereford based. Vendor has been using Weeran Angus bulls for over 20 years, and more recently also from Bowmont Angus. Selection focus has been on Birth Weight, 600 day growth, Milk, Fat and EMA. These heifers have excellent depth and shape and will grow out to be very big, solid and heavy cows if given the opportunity.
