Assessor Comments	On offer a line of Angus & Angus cross heifers joined to a low-birth-weight Angus Bull preg scanned to commence calving 6th September. These cattle are very quiet & easy to handle and present in a forward healthy condition. Vendor had the intentions of keeping heifers and calving down however due to other commitments around calving time has decided to sell. Heifers are showing good frame/depth and will have maturity on their side before dropping their first calf. Please note there are 5 of the black heifers with white on the udder.
