Assessor Comments	Nicholls Farming are offering 26 PTIC 3 Year Old Cows that have their second calf ready to hit the ground shortly. They are PTIC to Allendale Enhancer who is an outstanding Bull that will throw some good calves. The cows had the calves weaned off them only 4 weeks ago and are responding to the feed they are on. They are principally a medium to large framed cow showing good bone and in a tough year as first calving Heifers weaned calves that averaged 275kg. These Ladies have all their lives in front of them and will continue to be productive females for a number of years yet. They would make an ideal addition to anyone's Herd.
