	Docile: 84 head	Docile: 40 head Quiet: 44 head	Temperament not assessed in Paddock
	very good to handle, these cattle were weighed on platform scales, most of them stood on the scales calmly and were undisturbed which made assessing them, given the conditions a breeze. the steers have been handled daily by the vendors kids you could just about pat them but moved off easily when required.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	A good line of quiet well handled steers neatly processed with all the hard work done being fully weaned and educated for over a month. These cattle are infused with the genetics to perform and are ready to steam ahead on crop or with a wet season on them.
